

# Things to Know About Using the Nursery

## Who can use it?

Anyone attending a church event can use the nursery for their children 0 – 3 years old. After you sign in, you will receive a pager. So stay on campus in case you're needed!

## Where it is?

The nursery is located in the office hallway.

## What we need to know.

We would love to get to know your little one better. So if you plan on using the nursery more than once, fill out an "All About Me" form on our web page.

We also need notice for each evening or special event that you'd like to attend with childcare. Do that 48 hours in advance on the web page too!

## What you need to know.

We staff an average of 1 worker for every four children. There will always be a minimum of two workers present in the nursery.

If you'd like childcare to attend the weekly women's Bible study, let us know! We will extend the age limit to Kindergarten.

This one's important. We ask you to please observe our health guidelines. Your child must be free of all illness symptoms for 24 hours before coming into the nursery.

Bible lessons will be taught during regularly scheduled morning childcare.

If your child is having difficulty of any kind while in our care, we'll just page you for help.

We offer a healthy, Christ-centered environment where your children can experience God's love from God's people.
