The Search Team has been meeting weekly for a little over a month with the task of discerning, preparing documentation, researching, interviewing, and recommending to the Session a Lead Pastor that will faithfully lead Cornerstone in the future. We are working in conjunction with the EPC Ministerial committee, Bill Enns (Pastor consultant), and other resources as God leads.

To date we have prepared the Congregation Information Form (CIF) for review and approval by the Cornerstone Session and the EPC, developed a Pastor call process plan, and written a Lead Pastor job description that is consistent with information obtained from the church survey, strategic team summary, and a collaborative teaching/preaching model that moves us to be better disciples of Christ to our community and world.

In March we hope to begin receiving information, resumes, and interest for the Lead Pastor position. We are first looking to people God may call that have been referred to us by the EPC, Bill Enns, and others that know us and understand who we are and what we are looking for in our new Lead Pastor.

Although we are putting a process in place to structure our work, we hold our plans loosely, praying for God's lead and timing in this endeavor to hire our next Lead Pastor. We will update you monthly. Feel free to ask any one of us questions, which we will take note of and answer as a team so that we are consistent and unified in our response.

It is still our desire, God willing, to have hired a Lead Pastor by September-October of this year. We feel the presence of the Lord through your prayers; and are confident that He will bless Cornerstone as He has faithfully for the last 149 years.
